**why frankenstein is the story
that defines our fears bbc**

June 5th, 2020 - the 100
stories that shaped the world
frankenstein is simultaneously
the first science fiction
novel a gothic horror a tragic
romance and a parable all sewn
into one towering body'

'fictional universe

May 30th, 2020 - a fictional
universe or fictional world is
a self consistent setting with
events and often other
elements that differ from the
real world it may also be
called an imagined constructed
or fictional realm or
world' 'the big bang is hard
science it is also a creation
story

June 5th, 2020 - i n some ways
the history of science is the
history of a philosophical
resistance to mythical
explanations of reality in the
ancient world when we asked
where did the world e from we
were told creation myths in
the modern world we are
instead told a convincing
scientific story big bang
theory first proposed in 1927
by the belgian roman catholic
priest gees lemaître'

**'scientific imagination the
junkyard**

May 25th, 2020 - philosophers
of science do not offer
explicit analyses of
imagination but they monly
associate it with mental
imagery some authors see the
imagistic character of
imagination as an asset in
explaining how scientific

models work but most scientists and philosophers dismiss the imagination as soon as it is linked to mental imagery'
