April 30th, 2018 - In a computer operating system that uses paging for virtual memory management page replacement algorithms decide which memory pages to page out sometimes called swap out or write to disk when a page of memory needs to be allocated'

'Kernel operating system

Wikipedia

May 2nd, 2018 - The kernel is a computer program that is the core of a computer s operating system with complete control over everything in the system

On most systems it is one of the first programs loaded on start up after the bootloader'
