## **Half Adder Interactive circuit TEAHLAB**

*May 10th, 2018 - The Half Adder is the basic  
building block of all arithmetic circuits Every  
microchip or machine that can perform addition  
subtraction multiplication or division has Half  
Adder blocks inside'* **Combinational Logic Circuits  
using Logic Gates**

May 8th, 2018 - One of the most common uses of  
combinational logic is in Multiplexer and De  
multiplexer type circuits Here multiple inputs or  
outputs are connected to a common signal line and  
logic gates are used to decode an address to select  
a single data input or output switch'
