dormehl takes readers'

'the formula how algorithms solve all our problems and  
June 2nd, 2020 - the formula provides an overarching account of  
how algorithms are increasingly being used to mediate augment  
and regulate everyday life there s much to like about the book it s  
an engaging read full of interesting examples there s an attempt to  
go beyond the hyperbole of many popular books about technology  
and society and it draws on the ideas of a range of critical  
theorists'

*solve*"notation difference between formula and algorithm  
May 30th, 2020 - an algorithm is a formula as well as a procedure  
therefore conceptually a formula is a subset of an algorithm  
algorithms can be defined either in a procedure or a formula as  
someone mentioned above baking a bread is a procedure and its  
definitely an algorithm moreover the quadratic equation  
mentioned above is a formula as well as an algorithm"
