'bass baritone

May 20th, 2020 - a bass baritone is a high

lying bass or low lying classical baritone voice type which shares certain qualities with the true baritone voice the term arose in the late 19th century to describe the particular type of voice required to sing three wagnerian roles the dutchman in der fliegende holländer wotan der wanderer in the ring cycle and hans sachs in die meistersinger von nürnberg'

'list of baritones in non classical music

May 31st, 2020 - the baritone voice is typically written in the range from the second a below middle c to the a above middle c a2 a4 although it can be extended at either end however the baritone voice is determined not only by its vocal range but also by its timbre which tends to be darker than that of the typical tenor voice the term baritone was developed in relation to classical and operatic voices'
