???"ASTM A370 Tensile Testing and

Bend Testing Steel

May 2nd, 2018 - There are several global standards that specify mechanical properties and or testing requirements for steel reinforcing bar rebar Some of the most common include ASTM A370 ISO 15630 1 BS 4449 AS NZS 4671 JIS G 3112 GB 1499 and ACI 318'

'Steel Standards

May 1st, 2018 - ASTM s steel standards are instrumental in classifying evaluating and specifying the material chemical

mechanical and metallurgical properties of the different types of steels which are primarily used in the production of mechanical components industrial parts and construction elements as well as other accessories related to them"
