May 31st, 2020 - optics is the branch of physics that  
studies the behaviour and properties of light including  
its interactions with matter and the construction of  
instruments that use or detect it optics usually  
describes the behaviour of visible ultraviolet and  
infrared light because light is an electromagnetic wave  
other forms of electromagnetic radiation such as x rays  
microwaves and radio waves"***geometrical and visual
