The UML Component
Model by Sparx
Systems

May 10th, 2018 -

The Component Model
The component model
illustrates the
software components
that will be used
to build the system
These may be built

up from the class model and written from scratch for the new system or may be brought in from other projects and 3rd party vendors'

'UML Activity
Diagrams Tutorials
Point

May 9th, 2018 -
Activity diagram is another important diagram in UML to describe the dynamic aspects of the system. Activity diagram is basically a flowchart to represent the flow from one activity to another activity. The activity can be described as an operation of the system. The control flow is drawn from one ' '.
