block distractions with the colors of noise apartment

**June 2nd, 2020 - no doubt you ve heard of
white noise the sounds that can help you
block loud or distracting noises in order to
sleep or concentrate well it turns out that
depending on the type of noise you re
trying to avoid you may want to try some
colored noise instead we re not talking
ocean waves or thunderstorms although
those can also be quite soothing"steve aoki
announces memoir blue the color of noise

'population dynamics and the colour of environmental noise

January 3rd, 2017 - population dynamics

subjected to red and blue environmental

noises show respectively more red or blue

power spectra than those subjected to

white noise the sensitivity to differences in

the noise colours decreases with increasing

plexity and ultimately disappears in the

chaotic range of the population dynamics'

'the color of noise

May 24th, 2020 - red noise is the opposite

of blue noise it has only low frequency

**noise but no high frequency green noise
has middle frequency noise but no high or
low in fact people have actually made
spatial pattern generators that allow you to
input the frequency profile that you want
and get the corresponding point pattern
out"white pink blue and violet the colours of
noise wired uk**

*May 25th, 2020 - blue and violet noise on the
other end of the spectrum to red and brown
noise lie blue and violet noise blue noise is a
little like pink noise in that it changes
proportionally with increasing'*

**'white brown pink the different colors of
noise**

*May 31st, 2020 - different spectral densities
have been given different color names the
most mon colors of noise that you will hear
about include white pink gray black violet
blue and brown white noise white noise is the
one whose frequency spectrum is flat since it
prises of equal energy per cycle'*
