Evidence Decision and Causality by Arif Ahmed

November 19th, 2019 - Ahmed's book on the debate between EDT and CDT is a very welcome addition to the literature in decision theory It is a very subtle and finely crafted review of the principal points pertinent to an adjudication of the debate'

'J Dmitri Gallow University of Pittsburgh PhilPeople

December 22nd, 2019 - I am an Assistant Professor in the Philosophy department at the University of Pittsburgh I spend most of my time thinking and writing about causation chance credence and choice I mostly teach about the philosophy of science metaphysics epistemology ethics the philosophy of economics and logic'

'Huw Price Causation Chance and the Rational

November 25th, 2019 - In 'A Subjectivist's Guide to Objective Chance' David Lewis says that he is 'led to wonder whether anyone but a subjectivist is in a position to understand objective chance' The present essay aims to motivate this same Lewisian attitude and a similar degree of modest subjectivism with respect to objective causation'

'Causation Chance and the Rational Significance of

September 24th, 2018 - Two boxers give priority to causal beliefs and one boxers to evidential beliefs A similar issue can arise when the modality in question is chance rather than causation In this case the conflict is between decision rules based on credences guided solely by chances and rules based on credences guided by other sorts of probabilistic evidence' **Deterministic**

Chance Luke Glynn ABSTRACT

December 2nd, 2019 - chance causation connection The conclusion §6 is that there are non trivial deterministic chances 2 Schaffer's Incompatibilist Argument I will now review Schaffer's argument that non trivial deterministic chances would violate the connections from chance to credence possibility and lawhood and that chance is'

'Causation Probability and Philosophy 3 16

December 14th, 2019 - Here he discusses the distinction between actual causation and causation why norms are important in accounts of causation why he rejects a Humean account of causation an aside about scientific anti realism probabilistic causality and the worries of determinism Kant s means ends metaphysics extended causal models causal theories in the'
